MARILYN KIMAYONG

HOME MANAGER

Welcome to Benson House

Located in the village of Benson, situated opposite the River Thames discover our new luxury care home with beautiful facilities and gardens to relax in.

I have been working for Caring Homes for 16 years so bring a vast amount of experience with me to Benson House where I am proud to be the Home Manager.

Looking after a purpose-built new commission and seeing it develop from the ground upward is very exciting and I am looking forward to helping recruit and develop a professional and compassionate team around me at Benson House delivering the highest standards of residential, nursing and dementia care.

I am a qualified nurse with a background in care of the elderly and have worked in a variety of settings around the world including China, Taiwan and the Philippines. I have previously worked in a number of Caring Homes' other homes and I am passionate about providing the best possible care and making a positive difference to the lives of all our residents.

I have been leading a Caring Homes project to recruit nurses from the Philippines into the company and in my spare time I work with the Filipino UK Nurses Association as a Regional Director for the South East. This is an organisation of Filipino Nurses in the UK with an overall goal of supporting Learning and Development of young and incoming nurses from the Philippines to continue the legacy of Filipino Nurses in the UK.

I have benefitted from the support and career development that Caring Homes provides and have recently finished my own MBA in Global Masters in Business Administration at Oxford Brookes University. I aim to support my team in their development

As Home Manager I enjoy the variety and the challenges which each day brings at a care home. I take a lot of pleasure from spending time with relatives and residents, understanding the important contribution that these relationships make to the successful running of a care home.

I love to walk the floor, to be with other people and to know what is going on in the home. I always get to know the residents, their relatives and my team really well and encourage an open-door policy so that I am available for help and support whenever it is needed.

As Benson House is a new home this is something I am especially looking forward to – being able to spend that special time welcoming people into the family and helping them to settle into their new home, gradually building up the number of our residents.

I am also looking forward to building up strong relationships with the village community that we will be an active part of and exploring the lovely village of Benson and the surrounding area.

I don't have a lot of spare time but when I am free I enjoy seeing my family, I have four children and one grandchild with another due very soon.
