JULIE BIGNELL
HOME MANAGER

Welcome to Horsell Lodge

Located on the outskirts of the delightful village of Horsell, our stunning home is built to the latest care standards offering dementia, residential and nursing care on a permanent and short stay basis.

As the Home Manager I believe our residents should be able to live the life they want and be able to be themselves. I enjoy taking on the responsibilities that come with managing a home and I encourage the inclusion of everyone in the home, to create a friendly environment and a great place for us all to live and work.

I have worked in a variety of roles within the care sector for over 40 years, including being a registered nurse in the NHS for 20 years in intensive care and then moving to a nursing role within a care home. From there I progressed to Home Manager and have managed various sized homes, giving me great experience and having worked as a nurse in this setting previously I understand what the day-to-day role involves so I can support my team.

I operate an open-door policy and am approachable, not only to my team, but to the residents and their relatives too as it is their home. I encourage residents to make their rooms their own, by bringing in meaningful items to help make it homely for them.

The care background of the owners of Caring Homes is what stood out to me when joining as they understand what is involved at home level and there is a strong support network in place for me and my team to continually develop. I am passionate about seeing my team members grow and develop in their roles at the home as I work with them to offer the best care and environment possible for our residents.

In my spare time I love to travel and understand different cultures, I never go back to the same place twice as the world is so big and has so much to offer. I am also interested in ancestry, which I find fascinating and is a journey of discovery. I look forward to meeting you.
